

PRESS RELEASE

Ferrari Land, a new theme park unique in Europe arrives at PortAventura World

The entry ticket to Ferrari Land will also grant access to PortAventura World. Adult ticket prices start at 60 euros.

PortAventura World Parks & Resort has announced its new Ferrari Land attraction will officially open on 7th April, 2017. This attraction will offer 70,000 m2 of fast-paced fun and will be the only Ferrari theme park in Europe. Visitors will discover the technological genius of the iconic Italian brand and a recreation of the birthplace of the Scuderia. They will also enjoy world-class rides inspired by Ferrari, which will include the park's main attraction, 'the Vertical Accelerator', which will stand even taller than PortAventura's own Shambhala. It will set a double record for being the highest (112 metres) and fastest (0-180 km/h in five seconds) rollercoaster in Europe.

This is a unique theme park in Europe where you can enjoy a thrilling experience with the whole family and discover all the secrets behind the legendary Italian brand and its creator, Enzo Ferrari.

Get ready to enjoy the most impressive technology and innovation with the attractions and experiences of PortAventura World Parks & Resort's third theme park (the other two being PortAventura Park and PortAventura Caribe Aquatic Park)!
