After doing thorough research, calls with our partners and with good friends in South Africa and with KLM, we decided that traveling to and in South Africa is safe enough (with an eye on Corona). If you want more information and details about the situation and safety in the country please [let us know here](#), we're happy to share the results with you.

DESTINATION OF THE MONTH

Italy is one of the 21 best destinations to travel in 2021 according to CNN

The unique charm of Italian landscapes continues to enchant abroad; CNN has recently compiled a list of the 21 best trips to do during this 2021, including Italy among the recommended destinations. The American all news network has already rewarded the peninsula several times, first with a ranking of the most beautiful villages and then highlighting Polignano a Mare among the most beautiful beaches in the world.

Italy is once again defined as one of the twenty-one destinations to be included in the travel wish list, confirming the strong interest in the Bel Paese which is considered particularly interesting both from a historical-artistic point of view and from a landscape one.

Among the reasons why Italy has been included in the places to visit is the lower flow of tourists: if in fact in recent years the cities of art such as Rome and Florence witnessed what is called 'over-tourism', limits that will be imposed if we can return to travel will allow travellers to enjoy the cities in a peaceful and pleasant way.

Another reason considered relevant to include this beautiful peninsula in the ranking is the work to improve the services offered to travellers: for example, the largest cities of art such as Venice are promoting artisans trying to outshine the souvenir shops that trap travellers.

Furthermore, among the reasons for rewarding [Italy](#) is the strengthening of the distancing measures that will be extended to ensure safety in the coming months: the Brera Art Gallery, for example, has declared that it wants to continue with admissions by reservation only.

Finally, CNN's suggestion is also to shift attention on farmhouses, rural realities and villages where it will be possible to maintain social distancing while enjoying relaxation and tasting traditional dishes that are loved all over the world. We are happy that we represent our DMC partner, [Comunicando Eventi](#), in this gorgeous and perfect (MICE) destination.
