Top25Restaurants.com, published by the Travelindex Group is the world's first and only restaurant guide based on AI. Top25Restaurants.com announced its latest rankings for Bangkok in December 2020.

Top25Restaurants.com is celebrating fine dining in five cities across Asia, highlighting in each city its the culinary dynamism, as well as new trends and chefs supporting local community products. Top 25 Restaurants contributes to the prestige of the local fine dining scene and, with the integration into the Travelindex global ecosystem, contributes to attract more visitors and tourists to the cities and countries.

Restaurant ratings and reviews are critical in the consumer decision making process. The Top 25 Restaurants Guide is based on Travelindex owned and patented, "Restaurant Rating Index". The 3-tier rating combines the power of crowd wisdom (social media and review sites) with artificial intelligence behavioural algorithms and a zest of human expertise from some of the world's top culinary experts.

"We believe our restaurant guide and awards will contribute to foster the image of Bangkok and Thailand as a prime regional gastronomy destination, once the pandemic is under control", said Bernard Metzger Founder of Travelindex Group and Top25Restaurants Guide series.

He added; "Due to the Covid-19 pandemic, experts were not able to visit and evaluate restaurants as in previous years. Out of respect for the chefs and owners whose primary concern this year has been survival rather than winning awards or improving ratings, we added more context data to our algorithm and feedback from local foodies".

The hospitality and the restaurant sectors in Bangkok and Thailand have been hardly hit by the pandemic, which has led to some permanent restaurant closures. However, Thailand's overall response, and ability to curb Covid-19 infections, has led the World Health Organization (WHO) to identify Thailand, as a success story in dealing with the pandemic.

Travelindex Group and Top25Restaurants.com are committed to further promote Thailand as a gourmet heaven to attract more fine dining lovers by publishing, in 2022 a much-expanded restaurant guide and larger award certificate presentation event.
